

Project Meetings Regarding SSFL

DTSC is posting meetings we have with Boeing, NASA, DOE, other public agencies, and other interested parties to keep the public informed as we continue to investigate and prepare for cleanup actions at SSFL.

September 2007

September 6 – Meeting via telecon between CH2MHill technical team and DTSC technical team to discuss preparation and reporting format of Group 2 and 3 Area RFI reports.

September 19 – DTSC site visit to observe offsite seeps and spring sampling by Boeing.
